

Instructions for joining a Google Meet

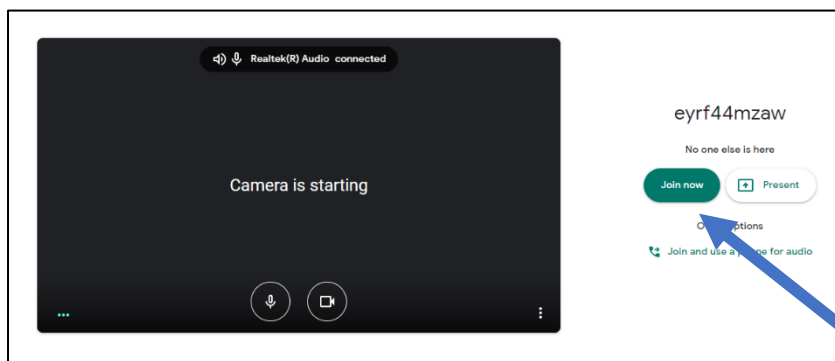

Step 1:

When you enter your 'Classroom' page you will see the classrooms where you are a member. Do not click on the tasks. Instead click on the classroom name where the meeting will be.

Step 2:

Inside the classroom, under the name will be a Meet Link. You can click on this and it takes you straight to the meeting.

Step 3:

You might need to make sure the camera and microphone are working. Some pop ups will request access. Once ready click 'Join now'.

We will probably have to mute microphones as there will be too many talking at once.
